WORKING WITH INVENT LEARNING

We have teamed up with Invent Learning to deliver a programme, that is suited and tailored to the individual needs of each student.

Our aim is to support the student in developing a strong work ethic in an outdoors environment.

With the help of our qualified instructors/assessors it will give the student the opportunity to gain further knowledge and a better understanding, in this type of work.

As part of this bespoke package we are also able to offer this course with a functional skills Maths and English element attached to it.

Students will spend the day with two different organisations that are totally committed to giving 100% support to students that may struggle in a main stream or conventional school environment.

Please get in touch to find out more.

ENGAGE TO ACHIEVE, INSPIRE TO SUCCEED

Invent Learning work with young people who have experienced difficulties in other educational settings. We have a team of specialist staff who support young people in emergency, short, medium and long-term placements with any of the following: Behavioural Difficulties, Challenging Behaviours, Children in Care, Social and Emotional Difficulties, Mental Health, Autistic spectrum disorder, Disadvantaged Backgrounds.
